**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --****Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 06 April 2005.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 20-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Krueger et al U.S. Patent 4,948,120.

Krueger et al disclosed a swing comprising a swing frame (11) comprising at least one leg with a length adjustment mechanism (19, 20) that allows the leg to be adjustable in length, a seat (25) coupled to the swing frame to enable swinging motion of the seat relative to the frame. The leg (11) includes a first portion (11a) and a second portion (11b) slidably positioned within the first portion, a biased protrusion (19) of the first portion and multiple holes (20) on the second portion (11b) sized to receive the protrusion. It is noted that Krueger failed to teach the use of a power supply and a motor to drive the swinging motion of the seat. However, such powered swing seat is very well known in the art. Accordingly, it would have been obvious to one of ordinary skill in the art to modify the springs (32) with a motor and power supply for the purpose of allowing the swinging motion of the seat without supervision of a caretaker.

Regarding claim 23, it is noted that Krueger et al disclosed only one protrusion with a plurality of holes instead of multiple protrusion and a hole as set forth in these claims. However, such difference is merely a mechanical expediency and reverse design of Krueger et al. Furthermore, Krueger et al indicated that other length

adjustment mechanisms could be used (see column 3, lines 20-25). Accordingly, it would have been a matter of design to reverse the design of the protrusion and holes of Krueger et al with the reverse design to perform the same function.

***Allowable Subject Matter***

Claims 1, 2, 4-8, 12, 13, 16, and 24 are allowed.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

***Response to Arguments***

Applicant's arguments with respect to claims 20-23 have been considered but are moot in view of the new ground(s) of rejection.
